Please join us for the opening of the photo exhibition capturing the 2013 ASL study tour "Immigration, Religion, and Citizenship" to Houston.

The study tour was a joint program of American Studies Leipzig and the Institute of American Studies and Polish Diaspora at Jagiellonian University, Krakow.

The students took the academic experience from the classroom to the city of Houston, applying their knowledge to field research in order to better understand the interrelated dynamics of immigration, religion, and citizenship.

The exhibition is free and open to the public.
